EFFORTLESS  
Productivity

  
Enhancement  
HOTPICKS

  
Work  
CONVENIENTLY

  
It FLOWS  
better

  
The power of  
FLEXIBILITY

  
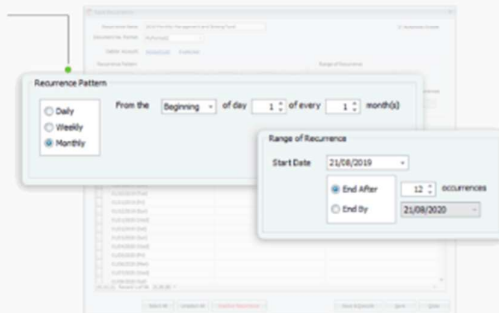

Make it  
PERSONAL

## EFFORTLESS Productivity

Create as many templates as you need for frequently used documents, and schedule all recurring transactions for future periods. Improve productivity and efficiency in daily routines with a few simple actions.

### ○ Schedule Your Recurring Entries

For many businesses, recurring transactions and accounting entries can be a huge volume of repetitive and tedious workload. Now you may schedule all future transactions and decide either to generate the entries automatically or to be prompted with reminders.

### ○ Use of Document Templates

Create a template for a frequently used document (e.g. Cash Sale) and enjoy SPEEDY processes in the subsequent billings. Imagine how much time you can save on documents such as Quotation, Sales Order, Invoice, Credit Note, Request Quotation, Cash Sale...

## The power of FLEXIBILITY

From general software users to advanced users, we offer more options in this software. This includes, among all, the Advanced Keyword Search, Stock Item Inquiry With Details, and Formula Editor.

### Advanced Keyword Search

### Stock Item Inquiry With Details

### Use of Formula Editor

When using keyword search, all partially and fully matched records will be displayed. This advanced powerful search feature is going to make your life easier, not just a bit.

## Make it PERSONAL

You may have some personal preferences when comes to colors, shortcuts and favorite functions. Every time you login, it appears as what you wanted it to be.

### Choose Your Theme Color

### Quick Access Data Charts

### Favorite Tiles on Main Page

Pick your referred theme color on this software with your login. If this makes you feel more comfortable, why not?

## Selecting The Right AutoCount Edition

Select from 5 Editions that were carefully packed to meet requirements of various types of business. Avoid paying for what you don't need. Should there is any module required but not included in your selected Edition, just request to add it on.
